

Please be aware - Signs Put In Woods

In the woods next to school, we have a nature trail and outdoor classroom that PTO has supported along with two Eagle Scouts as a project. Along this trail, there are benches and a marked trail for learning as an outdoor classroom for Hemlock Creek. Recently we have put up no trespassing signs in this area due to vandalism to the benches, trees being stripped of bark, garbage taken from school dumpsters and left in the woods, along with safety concerns. This is private property owned by the district. Although there have been several conversations since Spring with those involved, the problem has continued to escalate as to where our school liaison officer is now involved. We hope that this can continue to be an outdoor learning area that is respected.
