

4K NEWSLETTER

February 2025

Message from the 4K Director

Conferences

The month of February flew by. Thank you to our staff and 4K families for their time during conferences. I believe it is so important for that time to share and learn about our 4K students.

Dressing for the Weather

With the cold month that we had, I want to remind you to dress your 4K student with warm gear. They love to play outside, but need to be dressed appropriately!

Reading to your 4K Student

Reading to a 4K student is important for several reasons:

- Language development: Builds vocabulary and understanding of sentence structure.
- Cognitive growth: Encourages critical thinking and problem-solving.
- Emotional bonding: Strengthens connections and creates a positive learning experience.
