SCHOOL DISTRICT OF WEST DE PERE
INSTRUCTIONAL POLICY STATEMENT

6000

Research on effective schools identifies the following key elements all schools must address if all students are to learn:

1. A clear school mission and accompanying instructional program.
2. Strong instructional leadership.
3. High student expectations.
4. An orderly learning climate.
5. Opportunity for students to maximize learning.
6. Ongoing monitoring of student progress.
7. Parent and community involvement in the schools.

As such, the Board considers the instructional program to be of preeminent importance. Consequently, it is the policy of the Board to constantly maintain and improve the instructional program.

This policy will be implemented through a clear identification of goals and objectives, aggressive recruitment, training and recognition of our faculty, and periodic evaluations of program effectiveness. In its evaluation, the Board will seek input from the community.

In addition to establishing the mission, purpose, and standards for the schools, the Board must evaluate programs. In order to objectively evaluate programs effectively, the Board directs the administration to present the Board with factual evidence regarding achievement and productivity. Given such, the Board can then evaluate the educational system for continued growth and improvement.

DISTRICT ASSESSMENT OF STUDENTS

6005

Balanced, ongoing assessment is essential to the District's mission of providing an education appropriate to each student. Systematic collection, interpretation and application of assessment data is necessary to ensure quality improvement of student achievement, accountability for teaching and learning, and appropriate program review.

Assessment in the School District of West De Pere is based on the following guiding principles:

1. The essential purpose of assessment is the improvement of student learning.
2. Assessment must provide a comprehensive picture of student achievement.
3. Assessment must measure growth over time.
4. Assessment must be valid and reliable.
5. Assessment data must be responsibly and efficiently collected and managed.

To accomplish the purposes defined above, the assessment system encompasses a variety of assessment types such as:

- Standardized assessments that measure student skill and proficiency in relation to adopted state and local standards
- Standardized assessments that measure student achievement and aptitude in relation to state and national norms
- Benchmark assessments that chart student progress at defined points throughout the school year
- Common grade level assessments, writing assessments, portfolios, performance assessments and other authentic assessments that measure learning achievement on learning targets
- Formative assessments that provide feedback to both student and teachers about the progress students are making toward the articulated standards
- Student self-assessments that provide students with the means to be actively engaged in their own learning and academic goal setting
- Diagnostic assessments to improve the student's learning experience and their level of achievement.

The District expects all assessments to arise from clearly articulated achievement expectations, serve an instructionally relevant purpose, utilize proper methodology, sample student achievement in an appropriate manner, and control for all relevant sources of bias and distortion that can lead to inaccurate assessment.

SCHOOL DISTRICT OF WEST DE PERE
DISTRICT ASSESSMENT OF STUDENTS

6005 cont'd

When a parent or guardian requests that a student be excused from participating in any assessment that is required by the State, this request must be honored at grades 4 and 8-11 per Wis. Statute 118.30(2)(b)3. Parent requests may come at any time during the testing window and must be submitted in writing to the building principal. Per Wis. Statute 118.016(a), students in grades 4K-2 may not opt out of the state-required assessments. If the student is not in the above mentioned grade levels, the decision to grant the request is at the discretion of the building principal.

Appropriate student assessment reports will be provided to the public and parents as required by law. District level data will be used for curriculum development and evaluation, monitoring student learning, program development and evaluation, establishing goals, making budgetary decisions, determining needs for professional development and developing remediation plans at the classroom, building and district level when needed. Building level data will be used to monitor student learning, the effectiveness of curriculum, materials and instruction, to identify student groups with special needs, to provide accountability to parents/guardians, and to determine needs for building level professional learning and development.

Except as otherwise provided by law, individual student scores obtained from any aspect of the district's assessment program shall remain confidential and only be provided to appropriate school personnel for educational purposes, to the individual student, and the student's parent(s)/guardian(s).

Decisions regarding the assessment of students with disabilities and English Language Learners shall be made on an individual basis in accordance with legal requirements and established district policies and procedures. Accommodations provided for students with disabilities shall be documented on an individualized Education Plan (IEP) or 504 plan.

District staff involved with assessment or handling of assessment tools shall meet ethical and appropriate testing standards by:

- Following district, state and federal procedures for handling and tracking test materials before, during and after testing,
- Ensuring the integrity of testing environments by following standardized assessment procedures
- Following district state and/or federal procedures for proctoring assessments

SCHOOL DISTRICT OF WEST DE PERE
DISTRICT ASSESSMENT OF STUDENTS

6005 cont'd

- Maintaining confidentiality of assessment content
- Providing only district state or federally authorized assessment practice tools and materials for student use
- Following approved or allowable accommodations during assessment
- Submitting appropriate confidentiality agreement forms to district personnel annually
- Following proper procedures when reporting or investigating any alleged violation of test security provisions
- Participating in all required assessments and security training
- Prohibiting any person without sufficient and appropriate knowledge, skills or training from administering assessments

The District is responsible for investigating all reports of assessment violations and following disciplinary actions for staff found to be in violation of following established standards for ethical and appropriate testing practices. Disciplinary action will follow the district's Standards for Conduct/Employee Discipline in the Employment Provisions Handbook.

CURRICULUM ADOPTION

6010

The Board of Education recognizes that changing student needs require that District curriculum be revised periodically.

The Curriculum Director shall be responsible for developing procedures for monitoring existing curricula and for utilizing expertise available from within and/or outside the school system to develop new, more effective and appropriate curricula.

Approval of proposals to add new courses or programs or to delete existing courses or programs shall rest with the Board.

The principal may approve the revision of a unit(s) of instruction within an individual course or program, providing the objectives of the revised unit(s) are consistent with the existing course goals.

Where applicable, instructional materials and texts will reflect the cultural diversity and pluralistic nature of American society. Should a parent/guardian desire an alternative reading selection, it shall be requested of the teacher, and a district approved alternate that is in alignment with existing course goals and standards will be provided.

SCHOOL DISTRICT OF WEST DE PERE
EMERGENCY SCHOOL CLOSINGS

6112.1

The Superintendent is empowered to close the district schools or to dismiss them early in the event of hazardous weather or other emergencies which threaten the health or safety of students and personnel. While it may be prudent, under certain circumstances, to excuse all students from attending school, to delay the opening hour, or to dismiss students early, the administration has the responsibility to see that as much of the administrative, supervisory, and operational activity is continued as may be possible. Therefore if conditions affect only a single school, only that school will be closed.

In making the decision to close schools, the Superintendent or his designee will consider many factors, including the following principal ones relating to the fundamental concern for the safety and health of children;

1. Weather conditions, both existing and predicted
2. Driving traffic and parking conditions affecting public and private transportation facilities
3. Actual occurrence of an imminent possibility of any emergency condition which would make the operation of schools difficult or dangerous
4. Inability of teaching personnel report for duty, which might result in inadequate supervision of students

The Superintendent will weigh these factors and will take action to close the schools after consultation with the bus company, public safety authorities, and with school officials from neighboring districts. Students, parents and staff will be informed early in each school year of the procedures which will be used to notify them in case of emergency closing.

CRISIS POLICY

It is the policy of the West De Pere School District to keep the health and safety of the students and staff as a top priority. However, on rare occasions there are uncommon emergency situations or crises which arise that district staff are not typically trained to deal with. While all possible crises cannot be anticipated, the district has made a concerted effort to identify those which have some probability of directly impacting a school, and have developed guidelines for how the district will respond to such crises. These guidelines are detailed in the District Crisis Manual, and will govern how staff will respond.

The district will work with local law enforcement, health departments, or emergency response teams to ensure that the manuals are accurate, and up to date. The district will make these manuals readily available to all staff and annually inform the staff of the locations of these manuals. The district will also annually provide inservicing on the content of the manual: general emergency guidelines for all staff; and determine what staff should have more detailed inservicing on certain emergency-specific details.

INTERSCHOLASTIC ACTIVITIES

6125

The Board believes individual students will benefit through opportunities to grow physically and intellectually through their experiences in self-discipline and their contribution to team effort made possible through competitive interscholastic and intramural team and individual activities.

It is the Board's policy to provide students interscholastic competition in a variety of areas. Such students shall also receive recognition for involvement without cost to the students.

Students shall be allowed to participate providing they meet and maintain the requirements of the school and state activity codes. In all cases, students shall consider participation a privilege and not an entitlement, and should accept the responsibility of representing the schools in a positive manner. Failure to do so will result in the loss of privilege as determined by school and state guidelines.

The purpose of school activities is both educational and recreational. The activity program should encourage participation by as many boys and girls as possible and should be carried on with the best interests of the participants as the first consideration. The Board encourages the participation of all students in extracurricular activities. "Participation" means fair and equitable participation to the extent that the budget, facilities or type of activity allows. As such, the practice of cutting in elementary through 10th grade is to be discouraged and team rosters generally filled to WIAA maximum levels.

It is recognized that a well organized and well conducted activity program is a potent factor in the morale of a school student body and an important phase of good community-school relations. Too great an emphasis on winning contests or too consistent a record of losing them are both harmful to the development of good attitudes among students and the public.

The activity program is an integral part of the school curriculum and comes under the authority of the principal to the same degree as do all other phases of the curriculum. Scheduling of extracurricular practices/events should be done without unreasonable interference with other school and community obligations. Staff members having direct responsibility for programs are required to follow established Board and administrative policy.

COORDINATING COMMUNITY/SCHOOL ACTIVITIES

6126

The Board of Education believes that it is in the best interest of all students that calendar parameters be established to guide various community groups in scheduling activities. To assist in developing a common understanding between community and school, these school activity guidelines shall be followed:

- A. This policy shall emphasize parameters for all school activities, not just sports.
- B. Wednesday school activities should end at 6:00 p.m. Scheduling of any evening activities on Wednesday will be avoided in deference to community related activities. Students participating in community related activities on Wednesdays will be allowed to leave school activities early if necessary.
- C. The schools may use Wednesday evenings from May 1 through the end of the school year for events.
- D. Activities scheduled on Sundays or holidays shall be limited in nature. Exceptions can be made on Sunday if not scheduled before 12:00 noon and approved by building administration.
- E. There shall be no school activities when the schools are closed because of adverse weather conditions.

Exceptions to the above guidelines may be made by a building administrator when a group has a schedule change requiring Wednesday competitions, a regularly scheduled competition on Monday, or has won the privilege of advancing to a higher level of competition. In this instance, a building Principal or Director of Student Activities may approve of a request from a coach for practice on the Sunday preceding the contest. These practices may not begin before 12:00 noon.

Bylaws and Policies

The School District of West De Pere provides a data and communications network to facilitate communication within the school community and between the community and the global community.

Ready access to information resources inside and outside the school provides academic support and promotes innovation. Access to these resources is a privilege, not a right. Resource sharing and communication both within the school and also with other educational institutions broadens and enriches the learning environment for students and staff.

This policy is established to delineate use of network resources for District administrative and educational purposes. “Educational Purposes” include the use of the computer network system for classroom and professional development activities.

The District encourages staff and students to utilize the internet in order to promote educational excellence in our schools by providing them with the opportunity to develop the resource sharing, innovation, and communication skills and tools which will be essential to live and work in the 21st century.

All users (i.e. teachers, administrators, staff, students and other authorized personnel) and parents/guardians need to understand that even though we have taken precautions to filter the internet content and are providing adult supervision by teachers and/or support staff, there is still the potential for students to access inappropriate material. Our internet filtering cannot be disabled by students or staff. The benefits to students accessing the internet far outweigh disadvantages. Ultimately, parents and guardians are responsible for setting and conveying standards that their children should follow when using media and information resources. Access shall remain in effect through the school year, unless suspended or terminated by the school.

All internet and network users (and their parents if they are minors) are required to sign a written agreement to abide by the terms and conditions of this policy and its accompanying guidelines.

The District designates all administrators are responsible for overseeing the implementation and enforcement of this policy and its accompanying guidelines as they apply to the use of the network and the internet for instructional purposes.

The School District of West De Pere complies with CIPA (Children’s Internet Protection Act) COPPA (Children's Online Privacy Protection Act), and FERPA (Family Educational Rights and Privacy Act).

The Board of Education supports student and staff use of West De Pere's Computer Network and the internet to participate in distance learning activities, to communicate with experts, to communicate with other students and staff and to locate material to meet their educational and informational needs. The District's goal in providing this computer network system is to promote educational excellence in schools by facilitating resource sharing, innovation, communication, and instruction to meet the expectations of Wisconsin's Model Academic Standards and District standards and benchmarks.

Information available via the internet is changing, and it is impossible to predict with certainty what information might be located there. Just as the purchase, availability, and use of media materials does not indicate endorsement of their content by school officials, neither does making electronic information available to students and staff imply endorsement of the content.

School administrators will develop procedures which facilitate use of the internet.

GUIDELINES FOR USING WEST DE PERE'S COMPUTER NETWORK AND INTERNET

West De Pere's computer network and internet access are provided for the benefit of students and staff for academic purposes. Users are responsible for their behavior and communications while using District technology. A *Computer Use Acceptance* screen acknowledging adherence to this policy appears on all computers prior to logging on. In addition, all families sign a document acknowledging adherence before being issued a chromebook or being allowed to utilize district technology. The following guidelines have been established so that devices can be used freely, safely, and efficiently:

- a. Respect others.
- b. Use shared resources wisely. Diligent effort must be made to conserve resources. (i.e. frequently delete emails and unused files and turn off unused equipment).
- c. Use language that is appropriate in the school community.
- d. Purchase of products or services online is prohibited unless they are for educational purposes and prior approval is received.
- e. Use of the network for commercial activity, product advertisement, political lobbying, or harassment of students, staff or others is strictly prohibited.

School devices interact with West De Pere's network infrastructure in invisible but carefully designed ways. Therefore:

- a. No alterations should be made to the hard drives of any school devices or servers: don't change administrative settings, add or delete programs, change operating systems; and don't run programs from media (e.g. disks, CD/DVD's, USB drives) without permission of the network system administrators.
- b. The use of *non-educational* sites, including but not limited to, games, internet chats, blogs, wikis, and unmoderated forums is an inappropriate use of computer resources and is not allowed.
- c. It is improper and illegal to copy programs, tamper with hardware, alter files, or enter certain areas of West De Pere's computer network without authorization.
- d. Any and all software or internet subscriptions must be approved for compatibility with West De Pere's computer network before purchasing.
- e. Do not disrupt the use of the network (e.g. downloading or uploading files of any type including, but not limited to, streaming music, video, or applications).
- f. No unauthorized access, including so-called 'hacking' and other unlawful activities.
- g. No unauthorized disclosure, use, and/or dissemination of personal identification regarding minors.
- h. Prohibited activity includes, but is not limited to, access to material deemed "obscene", "child pornography", or "harmful to minors".

SCHOOL DISTRICT OF WEST DE PERE 6131 (R) cont'd
GUIDELINES FOR USING WEST DE PERE'S COMPUTER NETWORK AND INTERNET

- i. Individually assigned devices are to be used by that individual only (staff may not allow students to use staff devices). Users are responsible for damage that may be incurred by another user, as outlined in the device handbook.
- j. Off-site use of any district-owned device must be primarily for an educational purpose (integral, immediate, and proximate to the education of students).

Consequences of Misuse: Any user in violation of this policy will be subject to disciplinary action, which may include, but not limited to restitution for any and all damages, loss of device use privileges, suspension, expulsion, and referral to local authorities for further legal action. Any user denied access due to misuse will be responsible for finding alternatives for completing their tasks.

Passwords: Respect the confidentiality of passwords. Do not attempt to log on as anyone else. Users will keep all passwords confidential and not accessible to others. Staff will change passwords regularly as required. Change your password or ask to have your password changed when you think someone else may know it, and notify a teacher or administrator if you suspect passwords are being abused.

Electronic Communication: The same rules of civility for speaking or writing apply. Before you send a message, read it over to be sure it communicates the content and tone you want the receiver to read. Don't send unnecessary messages that waste the receiver's time, and don't use up unnecessary paper printing your messages unless you need them for a class.

- a. The School District of West De Pere pays for staff email accounts, which are provided for you to conduct your work. Limited use of email for personal reasons is acceptable.
- b. District administered student email accounts are provided for students in grades 4-12 and are to be used only for educational related purposes.
- c. Your messages and account-associated content are property of the school district. The District retains the right to review, audit, intercept, access and disclose all messages created, sent, and received over the email system as necessary.
- d. Unacceptable use of the email system would include passing on chain mail, jokes, links to non-educational websites, spam, animations, hoax virus warnings, etc.
- e. Chat room access or direct electronic messaging (including instant messaging) is prohibited unless there is a direct educational purpose and approval is granted by a school system administrator.
- f. The safety and security of minors must be considered when engaged in any of the above.

Privacy: Privacy is valued and respected in the School District of West De Pere and to track internet usage with security software capable of recording any and all sites visited to maintain system integrity and ensure responsible use of the system. ALL email, internal and external, both sent and received, is recorded on a read-only server accessible for administration purposes.

GUIDELINES FOR USING WEST DE PERE'S COMPUTER NETWORK AND INTERNET

In order to foster independent thought, creativity, and intellectual development, the school will only examine files when there is reason to suspect any activity or material that violates the school's code of conduct or law. This includes criminal activity; material that is obscene; material that is violent or actively encourages violent behavior; plagiarism or violation of intellectual rights or copyright laws; activity that endangers, demeans, threatens, or libels a person or persons; and material that denigrates people based on gender, race, ethnicity, disability, religious beliefs, or sexual identity.

Software:

- a. The unauthorized installation of software or files is prohibited.
 - 1. Licensing agreements will be upheld for copyrighted software.
 - 2. Privately owned software is prohibited.
- b. All software selection, approval, and budgeting must follow established procedures.

Hardware:

- a. Personal hardware, such as printers and monitors, is not acceptable.
- b. All hardware selection, approval, and budgeting must follow established procedures.

Cyber-bullying: The district's computer network and district owned equipment may not be used for the purpose of harassment. All forms of harassment are unacceptable and viewed as a violation of the District's acceptable use policy and procedures.

Cyber-bullying includes; harassing, teasing, intimidating, threatening, impersonating, or terrorizing another person by sending or posting inappropriate and hurtful email or text messages, digital pictures, or web site postings, including blogs, social networking sites, and any other web tools.

Students and community members; who believe they have been the victims of such misuse of technology, as described in this policy, should print out a copy of the offending material and bring it to the attention of a staff member or principal.

Use of Web Tools: The use of web tools is considered an extension of your classroom. Therefore, any speech that is considered inappropriate in the classroom is also inappropriate in any web tools. Students are not permitted to create social media pages that represent school sponsored clubs, sports, events, etc.

Students using any web tools are expected to act safely by keeping ALL personal information out of their posts.

Students using such tools agree to not share their username or password with anyone other than their teachers and parents.

Internet Access: Freedom of access to the wealth of resources available on the internet outweighs the risks of accessing material that is inappropriate. Internet users must accept their responsibility for this freedom of access. Computer and internet usage will be monitored for compliance.

Supervision and Monitoring: It shall be the responsibility of all members of the West De Pere School staff to supervise and monitor usage of the computer network and access to the internet at school in accordance with this policy and the Children's Internet Protection Act. In addition, content filtering will follow a device, even offsite. Procedures for modifying any technology protection measures shall be the responsibility of the Technology Department.

Safety: Parents, students, staff, and administration should be aware that the School District of West De Pere has no control over the content of the information residing on other computers connected with the internet, or control over the identity of individuals having access to the internet. Parents, students, and the adult community are therefore advised that the internet may contain material that is illegal, defamatory, obscene, profane, inaccurate, abusive or threatening, racial or ethnically offensive, or inappropriate. The administration and staff of West De Pere do not condone or permit the use or viewing of such materials, and persons are prohibited from bringing such material into the school environment. The School District of West De Pere will educate about appropriate online behavior, including interacting with other individuals on social networking websites, in chat rooms, and cyber-bullying awareness and response.

Disclaimers:

- a. The school district cannot guarantee network functionality or accuracy of information.
- b. The school district does not guarantee the effectiveness of internet filtering.

Student and Parent/Guardian Responsibilities: All students using the District's computer network or accessing the internet through the District's network must indicate that they and their parent or guardian understand the responsibilities of exercising this access by signing a user agreement, and that failure to follow it may result in loss of their network privileges and possible further disciplinary action.

DISTRICT EMPLOYEE GUIDELINES FOR USE OF SOCIAL MEDIA AND
ELECTRONIC COMMUNICATION

Philosophy

Social media has created a complex online environment that has blurred the lines between professional and recreational communication. Because this confusion of roles has the potential to produce contradictory messages and identities, the School District of West De Pere advocates a dual-identity social networking strategy for employees interested in social media for professional purposes. A dual-identity social networking strategy clearly distinguishes recreational social media use from professional social media use by creating separate accounts for each purpose.

Therefore, all district-related social networking use must take place on a separate professional account. Likewise, all non-teaching social networking must take place on a separate, recreational social networking account.

Recreational Social Media Account

Definition

A recreational social media account is a profile that is used to network for personal purposes such as keeping in touch with friends creating online photo albums of non-teaching related events, or other personal, social activities. A recreational social media account is not affiliated with the School District of West De Pere in any way.

Employees who use social media for personal purposes shall observe the following principles when communicating through social networking sites:

- Employees may not connect (friend, follow, or subscribe) to current students with their social accounts. However, an employee may communicate with a student using personal social media networks to the extent the employee and student have a family relationship or other type of appropriate relationship which originated outside of the school setting. For example, an employee may have a relationship with a niece or nephew, a student who is the child of an adult friend, a student who is a friend of the employee's child, or a member or participant in the same civic, social, recreational, sport or religious organization. In these instances, employees who choose to connect to current students must understand that they are still considered a mandated reporter in this online environment.
- Employees shall not post confidential information about students, employees, or school system business.
- Employees shall not knowingly allow students access to any portions of their personal social networking sites that are not accessible to the general public. For example, any content on a personal social media site that is protected with privacy settings should not be made available to students.
- Employees shall be professional in all internet postings related to or referencing the school system, students, and other employees.
- Employees shall not use the school district's logo or other material of the district as part of a personal social media presence without express written consent from the Board.
- Employees shall not post images of a student or student's family without permission from the student and the student's parent or legal guardian.
- Employees shall not use internet postings to libel or defame the Board, individual Board members, students, or other school employees.

DISTRICT EMPLOYEE GUIDELINES FOR USE OF SOCIAL MEDIA AND
ELECTRONIC COMMUNICATION

- Employees shall not use internet postings to harass, bully, or intimidate other employees or students.
- Employees shall not use internet postings to engage in any other conduct that violates Board policy and administrative procedures or state and federal laws.

Professional Social Media Account

Definition

A professional social media account is a profile that is created for the sole purpose of accomplishing teaching-related tasks such as communicating school-related information to parents and students. A professional social media account is a direct extension of the School District of West De Pere, and thus, the professional profile must adhere to all district guidelines for online publications.

Employees who use social media for professional purposes shall observe the following principles when communicating through social networking sites:

- Employees may connect to current students and parents only on a professional media account.
 - Employees who choose to connect to current students must understand that they are still considered a mandated reporter in this online environment.
- All communication between students and parents via the professional social media account shall be directly related to professional, school-related business; a professional social media account is an online extension of a district employee.
- Communication between students and parents needs to be in a medium that can be documented.
 - Documented Communication Tools include, but are not limited to:
 - Wall Posts
 - Discussion Forums
 - Inbox Messages
 - Emails
 - Public Tweets
- Employees may create an account for organizations, clubs, or classes
- All content posted on school-related accounts must adhere to School District of West De Pere guidelines for online publications.

Electronic Communications

All employee members' electronic communications, including but not limited to email and texting, is considered a public record, regardless of its professional or personal nature, and is subject to disclosure as allowed by law. Further, all employee members are bound by mandated reporting requirements at all times.

Social Media Influencer Presence

West De Pere understands that some employees may wish to create social media content that builds a popular following, however content related to the work an employee is doing at school and/or the school building location may not be used for personal gain (e.g., affiliate links, ads, etc).

Impersonation

Staff may not impersonate others on social media or any other electronic communication. Staff may not create a fake account of the school, another staff member, students, or school-related organizations. Staff who are found to be creators of or in possession of login information of fake accounts and staff who

RELEASED TIME FOR RELIGIOUS EDUCATION

6142

The Board of Education of the School District of West De Pere, recognizing that state legislation permits and that parents may desire released time for religious instruction, adopts the following guidelines for that program. In adopting these guidelines the Board of Education as a body is operating under section 118.155 and is neither recommending nor discouraging student participation in a released time program other than to expect that such a program might also influence achievement in the public school system.

The following specific guidelines are to be administered in the School District of West De Pere:

1. Students in the schools of the School District of West De Pere will be released for religious instruction under the following conditions:
 - a. Written permission from parent or guardian to be absent from school for religious instruction. Permission request must indicate location of religious instruction.
 - b. The church supervisor of such religious instruction shall report monthly, to the principal of the school attended, the names of the students who attended such weekly religious instruction.
 - c. The School Board may deny the privilege of released time to students who absent themselves from such religious instruction after requesting the privilege.
 - d. Not more than one hour (60 minutes) per week of regular time may be granted for religious instruction.
 - e. In order to avoid interrupting more than one day per week for any one group of students, release time for religious instruction will be granted on a weekly basis in accordance with schedules established by the principals.
2. For the benefit of all students, the schools shall attempt to avoid scheduling any evening activities on Wednesday in deference to church related activities.
3. The public school shall assume no responsibility for transportation as it relates to religious instruction.
4. The public school shall be released from all liability for a student who is absent from school in accordance with Statute 118.155 (1).

1. The courts have generally considered normal rules of responsible journalism a guiding principle for controlling student publications.
2. The following regulations and procedures shall regulate all student publications.
 - A. Any publication which is composed, compiled, published or distributed under the supervision of a school appointed sponsor or advisor is a school publication.
 - B. The students editors, student journalists and staff, and the editorial board shall have the following responsibilities:
 1. Determine the content of student publications.
 2. Consult with and consider the views of the publication advisor content and proper journalistic form.
 3. Report and editorialize on events, ideas, and issues, even though these may be unpopular or controversial.
 4. Rewrite material to improve sentence structure, grammar, spelling and punctuation.
 5. Seek and present contrasting views.
 6. Learn and observe the legal and ethical responsibilities expected of professional journalists, as discussed in the American Society of Newspaper Editors Statement of Principles.
 7. Know and observe applicable laws relating to libel, privacy, copyright, obscenity, and the substantive disruptions or material interference with school operations.
 8. Consider community standards of decency and good taste.
 9. Provide space for rebuttal comments and opinions in case of editorials or letters to the editor.
 - C. Students may not publish or distribute material which will cause a substantive disruption or material interference with school operations.
 1. Disruption is defined as student rioting, unlawful seizures of property; destruction of property; wide-spread shouting or boisterous conduct; or substantial student participation in a school boycott, sit-in, stand-in, walk-out or other related form of activity.
 2. Specific facts must exist upon which it would be reasonable to forecast that a clear and present likelihood of an immediate, substantial material disruption to normal school activity would occur if the material were distributed. In determining whether a student publication is disruptive, consideration is to be given to the context of the distribution as well as the content of the material.

Consideration is to be given to past experience in the school with similar material, past experience in the school in influencing student attitudes and behavior, and whether or not there have been any instances of actual or threatened disruption prior to or contemporaneously with the dissemination of the student publication in question.

Philosophy

In the School District of West De Pere, the students are the nucleus of the school system, and our educational decisions are guided by what we consider to be best for students. This means that every available alternative will be explored to help the students grow in academics and develop the self-discipline, social skills, and responsibility necessary to become a contributing member of society. The School District of West De Pere is committed to maintaining an atmosphere that is favorable to student learning, growth and development. We believe that appropriate student behavior enhances the curriculum and instruction intended to meet the needs of each student. We also believe that students who engage in behavior that interferes with effective learning and/or instruction should receive appropriate guidance, reteaching and when appropriate, consequences.

General Provisions and Expectations

School staff are expected to create a positive learning climate for students. Reasonable and clear learning and behavior expectations shall be communicated in writing to each student and his/her parent(s). All expectations will be enforced by school staff in a firm, and consistent manner. The building administrators shall assist and supervise school staff in meeting these expectations.

Students are responsible for their own behavior and for respecting the rights of all people in the school. Students are expected to abide by all rules of behavior established by the Board of Education.

Behavior that is dangerous, disruptive or unruly or that interferes with the teacher's ability to teach effectively and/or any student's right to learn will not be tolerated. Any student who engages in such behavior as defined herein may be subject to temporary or permanent removal from class; may be placed in an alternative educational setting; and may be suspended, expelled, or receive other consequences in accordance with school rules and expectations, established law, and Board of Education policies. Disciplinary procedures outlined in school agendas and student handbooks will be followed should a student engage in behaviors that are disruptive to the school environment.

Any student who engages in severe and/or repeated behavior that is dangerous, disruptive, unruly, or that interferes with the ability of the teacher to teach effectively and the ability of students to learn, may be removed from class on a temporary or long-term basis under this policy and its implementing administrative procedures.

Following are examples of such behavior:

- Violation of Board of Education Policies:
 - 1335- Tobacco/Nicotine Use on School Premises
 - 1251.1- Vandalism
 - 5117 - Student Nondiscrimination
 - 1336 - Drug-Free Schools

 - Theft
 - Profanity directed at an individual or group that presents a significant disruption to class
 - Impersonation of the school, a staff member, other students, or school-related organizations.
- This is not an inclusive list.

While this policy does apply to all students, additional safeguards must be considered for those students identified as requiring special education services under IDEA 2004 or accommodations under Section 504. In these cases, state and federal laws and regulations regarding special education and Section 504 have precedence.

Nondiscrimination

It is the policy of the West De Pere School District that no person may be denied the benefits of, or be discriminated against in any curricular, extra-curricular, pupil service, recreational, or other program or activity because of the person's age, sex, race, color, religion, gender identity, national origin, ancestry, creed, pregnancy, marital or parental status, sexual orientation, or physical, mental, emotional, or learning disability, homelessness, arrest record, conviction record, membership in the national guard or by any other criteria as specified in the legal references below.

It is also aware that the amount of preparation should increase as the child progresses through the grades. However, the Board will not look with favor upon an inordinate amount of homework assignments.

It is the Board's consensus that students can develop better study habits and attain a higher level of achievement if they are permitted to study during class time and under the supervision of the regular teacher.

SCHOOL LIBRARIES

6163

The Board of Education endorses the Access to Resources and Services in the School Library Media Program Interpretation of the Library Bill of Rights, as drawn by the American Library Association, which asserts that the school library media program plays a unique role in promoting intellectual freedom by.

1. Providing resources that create and sustain an atmosphere of free inquiry, with school library media specialists working closely with teachers to integrate instructional activities in classroom units designed to equip students to locate, evaluate and use a broad range of ideas effectively and educating students in the use of critical thinking skills.
2. Building collections of resources that meet the needs as well as the developmental and maturity levels of students.
3. Providing resources that reflect the linguistic pluralism of the community.
4. Employing educational criteria to select resources unfettered by personal, political, social, or religious views.
5. Eliminating major barriers between students and resources (such as restricted shelves; closed collections; age, grade level or reading restrictions; fees for information in specific formats) to support free and open access to information.
6. Adopting policies that guarantee students access to a broad range of ideas, including policies on collection development and procedures for the review of resources about which concerns have been raised.

SCHOOL AND CLASSROOM LIBRARY MATERIAL SELECTION

6163.1

- A. The legal responsibility for materials in the school center rests with the school district Board of Education. Responsibility for the final selection shall be delegated to the Superintendent and to the professionally trained personnel who know the course of study, the methods of teaching, and the individual differences of the pupils in the school for which materials are provided, such selecting to be in accordance with the statement of specific policy given below.
- B. The selection of school resource materials shall be in accordance with the following objectives:
1. To reflect the cultural diversity and pluralistic nature of American society.
 2. To support and enrich the curriculum.
 3. To further the development of youth intellectually, emotionally, and culturally.
 4. To provide additional materials to attract students toward recreational reading, viewing and listening.
- C. Instructional materials selection shall be a cooperative, continuing process in which administrators, teachers, media personnel, and students should participate. The basic factors influencing selection shall be the curriculum, interests, abilities, the backgrounds of the students and personnel using the centers and the quality and accuracy of available materials.
- D. The following evaluations criteria are used as they apply:
1. The material shall meet a high standard of quality in factual content and presentation and shall be appropriate to the ability and needs of the pupils in the various subject areas.
 2. The materials shall be selected considering the content and the value of the work as a whole.
 3. The material shall contribute to literary appreciation and have aesthetic value.
 4. The authors shall be competent and qualified in their field.
 5. The materials shall be objectively and impartially selected to provide a balanced collection for the library.
 6. The materials shall be appropriate for the emotional development, learning styles, and social development of the students.

SCHOOL DISTRICT OF WEST DE PERE
SCHOOL AND CLASSROOM LIBRARY MATERIAL SELECTION

6163.1 cont'd

- E. Whenever possible, first hand reading, listening or viewing of the materials shall be done before selection. This can be done by exchange of materials with other media centers, libraries, visits to exhibits and display, publishers samples, previewing materials, or online professional reviews. Materials selected shall be affirmed through consulting one or more professional book reviews, if available.

- F. The school district welcomes gifts of media provided:
 - 1. They meet the same standards of selection as those applied to the original purchases.
 - 2. They can be integrated into the general media collection and do not need special housing.
 - 3. The school district may dispose of the gift at its discretion if it is out-of-date or in poor physical condition, not warranting the cost of repair.

- G. The school district welcomes commercially sponsored library audio visual materials provided:
 - 1. They meet the same standards of selection as those applied to the original purchases.
 - 2. Their value to the instructional program is to educate rather than to promote sales.
 - 3. They are free from advertising which is excessive, obstructive or objectionable.

PROCEDURE FOR HANDLING OBJECTIONS TO
LIBRARY/CURRICULUM MATERIAL

6163.12

Every effort will be made to consider objections, keeping in mind the best interest of the students, the school, the curriculum, and the community. Since differences of opinion do exist in our society, the following procedures shall be observed to recognize those differences in an impartial and factual manner.

1. All concerns shall be presented in writing to the Superintendent who will forward a copy to the Director of Curriculum and the Principal. The REQUEST FOR RECONSIDERATION OF LIBRARY/CURRICULUM RESOURCES (adopted from the American Library Association) shall be used. It should be filled out completely and shall be signed and identified so that a proper reply can be made.
2. Once a reconsideration request has been filed, a selection committee will be formed by the Director of Curriculum. The committee will consist of the Director of Curriculum, Principal, and media specialist for objections to library books. The committee will consist of the Director of Curriculum, Principal, and a content expert for curriculum materials. The Director of Curriculum may also seek the participation of staff members or an interested and qualified citizen of the community as deemed appropriate. Questioned items will remain in circulation during the reconsideration process.
3. The committee will review the questioned material and all critical evaluations available. General acceptance of the material shall be checked by consulting authoritative lists in light of the selection policies of the school district. A thorough review of questioned materials shall be treated objectively: example- passages shall not be taken out of context and the material shall be evaluated as an entity.
4. The decision of the committee shall be reported to the Superintendent for final disposition.
5. The complainant shall be sent a copy of the final evaluation report and decision within 30 days of the receipt of the complaint. (Should the District be in receipt of greater than five Requests for Reconsideration of Library/Curriculum Resources [Policy 6163.12 (E)] at any given time, one additional week (7 days) shall be added for every additional Request for Reconsideration of Library/Curriculum Resources [Policy 6163.12 (E)] received.

PROCEDURE FOR HANDLING OBJECTIONS TO
LIBRARY/CURRICULUM MATERIAL

6. If the complainant is not satisfied with the decision, the complainant shall have the right to an appeal within 30 calendar days of receipt of the disposition. The appeal board shall consist of the original committee or substitutes from the same area plus the Superintendent, two additional faculty members from the area in question, and 2 representatives of the Board of Education. Individual Board of Education membership on the appeal committee will be determined by consultation between the Board President and administration. Should the appeal committee reach a decision that is supported by at least a two-thirds majority, the decision is considered final.

Should the appeal committee fail to secure at least a two-thirds majority, the matter will be forwarded to the Board of Education for final resolution.

7. The complainant shall be sent a copy of the final evaluation report and decision.

INTERLIBRARY LOAN POLICY

6163.15

- I. Definition:
An interlibrary loan is a transaction in which library materials or copies of a material, or resources are made available by one library to another library.
- II. Purpose:
The purpose of interlibrary loan is to provide access to library resources not available in the user's library.
- III. Scope:
 - A. The following types of materials will ordinarily not be loaned:
 - a. Rare, unique or valuable materials which would be difficult or impossible to replace.
 - b. Bulky or fragile items which would create shipping problems.
 - c. Resources in demand at the lending library.
 - d. Any materials or resources that ordinarily do not circulate.
 - e. Computer software.
 - B. It is the discretion of the individual library media specialist as to whether or not an item will be loaned.
- IV. Copyright Compliance:
The copyright law shall be adhered to at all times.
- V. Responsibility of the lending library:
The borrowing library and its users must comply with the conditions established by the lending library.
- VI. Responsibility of the lending library:
 - 1. To respond to all requests as soon as possible.
 - 2. To have its distributed materials clearly marked as to ownership.
 - 3. To assess replacement or damage charges.
- VII. Duration of the loan:
The length of the loan will be for one month. The lending library reserves the right to recall or renew any loaned materials at any time.

REPRODUCTION AND/OR USE OF COPYRIGHTED MATERIALS

The School District of West De Pere Board recognizes that the unlawful copying and/or use of copyrighted materials fosters an attitude of disrespect for law which is in conflict with the educational goals of the School District of West De Pere and puts the district at risk of litigation and as a result also may contribute to higher costs for materials and lessen the incentives for development of qualified educational materials.

The Board directs that district employees adhere to the provisions of Public Law 94-553 and subsequent federal legislation and guidelines to the reproduction and/or use of copyrighted materials, only permitting copying specifically allowed by copyright law, fair use guidelines, license agreements or proprietor's permission.

Appropriate notice will be posted on or near all equipment capable of making copies of any reproducible materials.

The Board further directs that:

1. Employees shall not make unlawful copies of copyrighted materials on district owned equipment;
2. Employees shall not use unlawful copies of copyrighted materials with or on district owned equipment, within district owned facilities or at district sponsored functions;
3. Employees shall not direct other employees under their supervision or students to make or use unlawful copies of copyrighted materials.
4. Employees who unlawfully copy and use copyrighted materials or direct others to do so are not acting within the course and scope of their employment and will be individually liable for any violation of state or federal laws;
5. Employees who willfully violate this policy will be disciplined.

The Board directs that all staff members be provided opportunities to become and remain knowledgeable about copyright law and guidelines as related to job responsibilities.

In order to implement this policy, the Board directs the superintendent to appoint a staff member or members to serve as copyright officers. It shall be the responsibility of the copyright officer(s) to annually review and update the district copyright guidelines, retention of appropriate copyright records, a collection of reference materials related to copyright, arrange for staff to have familiarity with and implement district copyright policy and guidelines and to act as a resource to staff members, regarding copyright laws, regulations, district policies and district copyright guidelines.

SUMMER SCHOOL INSTRUCTION

6174

The school district may conduct a summer school program each year. Its purpose is to provide additional opportunities for pupils to receive remedial instruction and participate in enrichment activities.

Summer school attendance does not in any way guarantee promotion for pupils. They may, however, earn credits toward high school graduation which may result in a revision of class placement in the high school.

As class attendance is vital to any learning experience, the Board has the following expectations relating to attendance:

1. Regular attendance is expected from students enrolled in summer school.
2. When a child is absent, the parent or guardian should notify the summer school office.
3. Students attending classes for credit are required to meet DPI attendance requirements. Teachers will clearly identify these requirements on or before the first day. If students do not meet the course requirements they may be denied credit. Students exceeding more than five absences will be denied credit.

TITLE I COMPARABILITY POLICY

6190

As required by ESSA (Every Student Succeeds Act) of 2015, the School District of West De Pere has established and implemented a district wide salary schedule and will use state and local funds to provide services in Title I project areas, which if taken as a whole, are at least comparable to services being provided in areas not receiving funds under this chapter. Should all school attendance areas be designated project areas within any grade band, state and local funds will be used to provide services which are substantially comparable to each project area.

It is thus the stated policy of the School District of West De Pere to ensure Title I equivalency among schools or grade bands within the district in provision of:

- 1) Teacher, administrators, and support services personnel
- 2) Curriculum materials and instructional supplies

Documentation verifying compliance with this policy will be maintained annually and records will be updated on a biennial basis documenting compliance. These records will be available for SEA or auditors review upon request.

It is understood that unpredictable changes in enrollment or personnel assignments which occur after the beginning of a school year need not be included as a factor in determining comparability of services.

TITLE I FAMILY ENGAGEMENT POLICY

6191

The School District of West De Pere, in compliance with section 1118(a)(2) of the Elementary and Secondary School Education Act (ESEA) concerning Family Engagement in the Title I Program, has jointly developed this policy with parents of participating Title I children within their school attendance areas. The policy establishes the District's expectations for family engagement and describes how the District will implement family engagement activities.

The District will work with each of its schools with Title I programs to put into operation programs, activities, and procedures for the involvement at the school level of families with children receiving Title I services.

The District and each Title I school within the district will use the following definitions of family engagement, and will carry out programs, activities, and procedures in accordance with this definition:

Family engagement means the participation of families in regular, two-way, and meaningful communication involving student academic learning and other school activities, including-

- A. that families play an integral role in assisting their child's learning*
- B. that families are encouraged to be actively involved in their child's education at school*
- C. that families are full partners in their child's education and are included, as appropriate, in decision making and on advisory committees to assist in the education of their child.*
- D. the carrying out of other activities, such as those described in section 1118 of the ESEA.*

Each Title I school within the West De Pere School District will:

- Involve families in the joint development and annual evaluation of Title I Family Engagement Plans **and** the process of Title I program improvement
 - **Activities**
 - Annual distribution (in Fall) of District Family Engagement Policy to all Title I families
 - Family involvement in the development of policy and program surveys as needed
 - Annual program evaluation surveys, including identifying barriers to greater participation by families in the family engagement activities
 - Meetings as needed to address program or policy concerns
- Conduct an Annual School-Level Title I Meeting (Fall)
 - **Activities**
 - Distribute and discuss District Family Engagement Policy
